YOUNG REMBRANDTS

ELEMENTARY DRAWING CLASSES

5 week Elementary Drawing Classes

Ages 6-12

Thursdays

Cost: \$35/\$45

Times: 9:30-10:30am

Min. / Max: 5 / 20

June 14 - July 12

July 19 - August 16

You must register at least 1 week prior to the next session.

The Young Rembrandts program is process based, not product based. There will be a bounty of additional skills gained by your child, as they learn to draw using the unique Young Rembrandts method.

Focus, Self-Discipline & Persistence. Did you realize your child spent 45-60 minutes focused on one project? The Young Rembrandts method has them sequentially place shapes, lines and a variety of details to create their drawings. The use of these analytically skills, perceptual skills and creativity is whole brained learning at its best.

Problem Solving, Visualization & Order Sequencing. As we learn to draw with Young Rembrandts, we look at our subject and learn to see its basic shapes. When we draw, we work from larger shapes to smaller details. Ask your child to name the basic shapes in different household objects. As they develop these attack skills, the sky is the limit. They can draw anything.

Coloring & Attention to Detail. We teach a professional method of adding color to our drawings. Your child may have used markers before, but not in this manner and not with these results. Ask your child to show you the official Young Rembrandts coloring method. These careful coloring skills will benefit many areas of their fine motor development.

Self Esteem & Positive Reinforcement. Your child is nurtured and encouraged in a non-competitive environment. There are no right or wrong answers in art. **We honor them for the process as well as the product.**
